

MULTI PROFILE

Strong anchoring

Suitable for all types of edging

INFO

- + Optimal anchoring and stability through alternating soil displacement
- + Unmatched resistance thanks to cavities in the profiles
- + Alternating profile structure for improved vertical guidance
- + No risk of milling thanks to patented wall structure
- + Screw penetrates no less than 4 screw surfaces
- + Universal anchoring for any edging
- + Recycled plastic blend for high impact resistance and stiffness

TECHNICAL SPECIFICATIONS

- + **MATERIAL:** recycled plastic blend
- + **COLOUR:** black
- + **HEIGHT:** 38 cm or 58 cm
- + **SCREW ZONE:** 18 cm

USAGE ADVICE

Suitable for all types of edging

- + Fix with self-drilling screws with countersunk head, length 45 mm (not included)
- + Screw into the flat side in the upper 18 cm
