

ECCODAL HD FLEX

Solid and flexible grass grid - Made from recycled plastic

INFO

- + Ecological: 100% recycled and 100% recyclable
- + Cell structure can perfectly absorb all thermal expansions
- + Thicker cell walls make the grass grid more resistant to torsional loads
- + More than 6 solid connections per linear meter between the grids
- + Unique and innovative shape for an aesthetic and uniform result after installation
- + A large contact surface at the bottom ensures better load distribution
- + Can also be placed in running bond for extra strength of the entire structure

TECHNICAL SPECIFICATIONS

- + **DIMENSIONS:** 78.5 x 58.5 x 4 cm (LxWxH)
- + **COMPOSITION:** 100% recycled material (PE-PP mix)
- + **GRASS SURFACE:** ≥90%
- + **COLOR:** grey-green (*)

(*) Recycled material is not 100% colorfast; this means that colors may 'fade to grey' over time. However, this does not affect the quality of the product.

APPLICATIONS

- + Grass driveways and grass parking areas
- + Fire lanes
- + Walking and garden paths
- + Campgrounds, paddocks, horse arenas ...
