

ECCO GRAVEL

Strong, frost-resistant gravel grids in HDPE

Perfectly water-permeable paving meeting the strictest quality standards

INFO

- + Gravel grid with high compressive strength and impact value
- + Increased torsional resistance thanks to additional plastic reinforcements between the cells
- + UV-resistant
- + Perfect for walking and driving over
- + Geotextile 100% bonded during production: extremely strong, rot-proof and no risk of clogging thanks to its open structure
- + Easy and quick to transport thanks to foldable format
- + 100% recyclable

TECHNICAL SPECIFICATIONS

- + **DIMENSIONS:** 160 x 120 cm
- + **HEIGHT:** 3 cm or 4 cm
- + **HONEYCOMB MATERIAL:** 100% HDPE
The black and grey gravel grids are made from recycled material
- + **COLOUR:** white, grey or black

APPLICATIONS

- + Driveway and parking
- + Fire access road
- + Garden / walking path
