

ECC-O-BAG

Reusable watering bag for trees

Drip irrigation of trees

INFO

- + **Dropwise and even irrigation** ensures that trees can absorb water better, without the risk of an overly wet soil
- + The tree remains better protected **during periods of extreme drought**
- + Easy to install thanks to **zipper system**
- + **Wide range of applications:** depending on the tree trunk diameter, 1 or more water bags can be zipped together per tree
- + **Strong material:** tear-proof and UV- and weather-resistant
- + **Long term irrigation :** 7 - 10 hours

SPECIFICATIONS

- + MATERIAL: REACH-certified PVC material
- + CAPACITY: 75 L
- + 2 TYPES: light (460 g) and heavy (650 g)
- + COLOUR: green

APPLICATIONS

- + To be used after planting or transplanting trees
- + Suitable for applying liquid tree fertilizers
- + Fill the ECC-O-Bag with clean water once or twice a week (to prevent that the holes get clogged)
